Hello Katie,

Attached are follow up items for the action requested items:

1. Corrective action plan for Disaster Management Committee Meetings. Also attendance record from 2018 showing that surgeon attended in 2018, however due to new disaster coordinator and OR demands,
2. Trauma Admission Guideline (note there are 2 – one from October and one revised at our operations meeting in February)
3. Sign in sheets for February's Peer Review (TPCC) and Trauma Operational (TOPI) meeting, along with overall attendance spreadsheet.

Items for recommendations

4. Registrar enrolling in ATS Trauma Registrar Course. Will forward invoice when received.
5. Copy of OR call log implemented to ensure 30 minute call standard
6. Question for the committee regarding nurse credentialing – What percentages are recommended to achieve for TNCC education? Any other courses beyond TCAR and TNCC recommended? Info attached from TCAR for a tentative August class date. The Master Service Agreement review is underway with the legal department and class will be finalized soon.

Thank you,
Christy

Christy,

Thanks for this. Here is the rest of the feedback and requests:

Action requested:

- Trauma Surgeon Response Times:
 - Please note: a trauma surgeon needs to physically attend at least two meetings of the Disaster Committee meetings
- ICU:
 - Please clarify: For trauma patients, who covers them while they are in the ICU?
- Meetings:
 - **All trauma surgeons and liaisons (Dr. Wanko only attended 1 operational meeting) did not meet the requirements of attending at least 2 operational meetings and 2 peer review meetings. This is required by the Designation Subcommittee to show engagement by the facility to pursue trauma center verification.**

Recommendations:

- TMD Section:
 - Phone conferencing is not optimal. Physical attendance is required by the ACS.
 - When the TMD is not available to attend in person, another trauma surgeon should facilitate the meeting in person and the TMD video calls in. Criteria 6-8.
- Registrar section:
 - Encourage Registrar Michael to attend ATS training. The American Trauma Society Trauma Registry course. Indiana currently does not have a trauma registrar course.
- OR/Post-anesthesia care unit
 - Please note: The ACS is really focused on call logs. For the call logs, how do you ensure that they actually arrive in 30 minutes? How do you bump elective cases to care for emergent cases?
- Nursing credentialing:
 - Please note: The ACS will ask for the percentages. The designation subcommittee recommends expanding education to not just new hires in orientation, but provide other forms of ongoing education for existing nursing who may be taking care of trauma patients for the first time. The designation subcommittee noted that there is a lack of trauma education in ED and ICU nursing staff.

Thanks,
~Katie

The Division of Trauma and Injury Prevention generates multiple resources to keep our partners informed about the opioid epidemic in Indiana:

- Visit our [overdose prevention](#) website to view county-level Indiana data on opioid dispensing, overdose deaths, non-fatal ED visits, and non-fatal hospitalizations.
- You can also visit [Stats Explorer](#) to view more of the aforementioned data, as well as related health data including HIV and Hepatitis C burden, by selecting “county opioid profile” in the search bar.
- If you have additional questions, please e-mail us at indianatrauma@isdh.in.gov.

Hello Katie,

Attached are the response times for 2020. We have had 2 so far this year.

Dr. Wanko did attend both meetings in January. I have attached January's peer review meeting attendance sheet. Unfortunately, he did not sign in on the operations meeting sheet (which meets immediately after the peer review meeting).

I do have December's operations and peer review sign-in sheets attached, showing he did attend and sign-in then.

Thank you,
Christy

Hello Katie,

Attached are the following:

1. Operational (TOPI) attendance tracker
2. Peer review (TPCC) attendance tracker
3. Spreadsheet showing response times for each surgeon

Thank you,
Christy

Franciscan Health Indianapolis Trauma Operations Performance Improvement Committee (TOPI) Attendance

Total Number of Operational Process Performance Committee meetings held:	2	* = excused per ACS guidelines	1. Please place total number of Operational Process Performance Committee meetings held in B1 field. 2. Place all meeting dates in columns C2 through F2, using only the number of columns appropriate for your facility and deleting excess columns - (i.e. if you only had quarterly meetings, then enter dates in C2 through F2) 3. Then list all committee members in column A with their attendance recorded in appropriate columns. 4. The overall attendance will automatically calculate in column G and overall percentage in column H.
